Volume 277, October 1999  
Volume 46, October 1999

Pages R1218-R1229: Paul F. Morrison, Michael Y. Chen, Richard S. Chadwick, Russell R. Lonser, and Edward H. Oldfield. "Focal delivery during direct infusion to brain: role of flow rate, catheter diameter, and tissue mechanics."

An incorrect formula appeared in the Abstract of this article. All exponents in this formula should have been one-fifth of the values shown, i.e., the formula for backflow distance ( $x_m$ ) should have appeared as

$$x_m = \text{constant} (Q_c^3 R^4 r_c^4 G^{-3} \mu^{-1})^{1/5}$$

We regret this error.
